Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 19, 20, 25, and 26 are rejected under 35 U.S.C. 102(e) as being anticipated by Jonnalagadda.

Regarding claims 19, 20, 25, 26, Jonnalagadda discloses a system for transmitting digital sound signals in a standard broadcast video signal (Fig. 2) comprising the following claimed limitations: “a mapper” (22), “a filter” (18, Fig. 4D, col. 5, lines 27-40), “transmitter” (col. 3, line 8), “receiving apparatus” (Fig. 5), “demodulator” (Fig. 2, 101, 104, 110 and 114).

Art Unit: 2634

3. Claims 21-24, 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Haskell.

Haskell discloses a demodulator for demodulating SC-HDTV signal (Fig. 8) comprising the following claimed limitations: "VSB modulated signal" (Fig. 4, col. 6, lines 64-68), "a filter" (55), "a demapper" (54, 56, col. 7, lines 20-36), "video decoder" (Fig. 9, col. 7, lines 37-41), "a display" (col. 10, lines 17-18).

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Resch discloses a television SAW/VSB filter incorporating receiver equalizer.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
